

# Something's wrong.

**1**

Can't sleep  
My alarm clock says it's 2am  
Keep turning around under my sheets  
Can't bear it anymore, so I  
Get up  
Find my flip-flops right beside my bed  
You brought them with you from under the couch  
You're always looking after me

**REF**

Something's wrong  
Tonight  
I don't feel like I belong with you  
All along  
It felt right  
But not now – not anymore

**2**

The rooms  
They look so much bigger in the dark  
So much empty space under this roof  
I used to love them oh so much  
That's gone  
I don't wanna see it fall apart  
My skin feels so cold under my touch  
And this time you can't make it right

**REF**

Something's wrong  
Tonight  
I don't feel like I belong with you  
All along  
It felt right  
But not now – not anymore  
Something's wrong  
With me  
I don't think you're part of this no more  
It's all gone  
What we had  
Couldn't last – it's in the past

**3**

It's late  
And it's way too late for us to be  
What we were back then out in the sun  
When there was only you and me  
The nights  
They were bright and full of life and love  
I slept on your waist under the sky  
This makes it hard to say good-bye

# No Raisins, Rupert!

**REF**

Something's wrong  
Tonight  
I don't feel like I belong with you  
All along  
It felt right  
But not now – not anymore  
Something's wrong  
With me  
I don't think you're part of this no more  
It's all gone  
What we had  
Couldn't last – it's in the past

**SOLO****REF**

Something's wrong  
Tonight  
I just know I have to leave you now  
Don't be strong  
It's alright  
We had love – (but) not anymore  
I was wrong  
You see  
I thought love would stay here anyway  
But it's gone  
It's my fault  
Never cared to make it stay
